

## Terms and Conditions

Effective from November 20, 2020

### 1. General

The network of electric vehicle charging stations is maintained and administered by State Road Traffic Safety Directorate, 6 Sergeja Eizenšteina Street, Riga, Latvia LV-1079, reg. No. 40003345734 (hereinafter - CSDD). Information about charging station locations is available at portal.e-mobi.lv (hereafter referred to as the Portal) and in the Portal mobile applications.

The Portal is maintained and administered by JSC "UNIFIEDPOST", reg. No. 40003380477 (hereinafter referred to as UNIFIEDPOST).

On behalf of the CSDD, UNIFIEDPOST concludes agreements with CUSTOMERS who receive electric vehicle charging services at electric vehicle charging locations and to collect payments for services provided by CSDD.

Charging stations are equipped with cables or sockets and provide CCS (Combo 2) or CHAdeMO standard DC charging or Type 2 standard AC charging. Information on charging standards available at a given station is indicated on the Portal.

Charging stations may only be used for its intended purpose - the charging of electric vehicles, which supports the charging standard. Charging is a service for a fee. Information about the charging tariffs for a specific station is specified on the Portal.

To charge, you must register at the Portal, sign the contract and receive an Authentication Card for the electric vehicle charging station (hereinafter "the Card") or register for the mobile application and use the payment card and Paypal for settlement purposes (hereinafter "Payment methods").

Charging can be started and stopped by sending an SMS. SMS codes are indicated on charging stations, in the mobile application and on the Portal. The charging fee will be added to the Customer's phone bill. The service is available to postpaid LMT, Tele2 and Bite customers registered in Latvia. An operator's fee may apply for this service.

### 2. Use of Charging Station

Customer authentication at the charging station takes place with the Card, mobile application or SMS. When performing authentication, the Customer must follow the instructions on the display of the charging station or in the mobile application.

The Customer is responsible for the safety of himself, people nearby, his vehicle and its equipment during charging.

The fee for charging service is taken only for actual charges.

The Customer is responsible for meeting the security requirements of the use of charging station's set in external regulatory enactments and the use of stations consistent with these regulations. When using the charging station, the Customer confirms that he is aware and assumes the risks associated with improper use of charging station equipment. The Customer undertakes to observe and take all precautions to ensure, for example, that the cable connection does not threaten third parties. Any damage to the charging station must be immediately reported to the customer service on +371 22001859 or 1859 or e-mail info@e-mobi.lv. The Customer is liable for any damage caused by the improper use of the charging station

The location in front of the charging station shall be used only for its intended purpose and shall only be used when charging electric vehicles. It is subject to all Road Traffic Regulations.

Blocking a charging station or parking lot, as well as using electricity for purposes other than charging an electric vehicle, is prohibited.

### 3. Working hours

CSDD-managed charging stations are available around the clock. Charging stations owned by other operators are used during their working hours. Information about the working hours of a given station is indicated on the Portal or at the charging station.

### 4. Payment terms

Service fee will be calculated for the period from the beginning to the end of the charge process. Charging is deemed to have begun with the moment when the Customer's authorization has been made and the charging cable is connected to the electric vehicle. Charging is considered completed from the moment when the power supply is stopped and the plug is disconnected.

The Customer should take into account the fact that on the Portal and in the application, the start and end times of charging process are displayed up to 1 minute, but the chargeable charge time is also calculated for less than a minute. For example - if the charge starts at 17:00:10 and ends at 17:20:30, then the start and end times of the charge on the portal and application will be reflected as 17:00 and 17:20. However, since the actual charge time is 20 minutes and 20 seconds, the charge will be calculated for 21 minutes.

The charging time displayed on the charging station display is an indication of the time from start of charging to the time when an authentication card is scanned (or the "Stop charging" button is pressed) on the charging station and the power cessation is started.

The counting system at the end of the charging process records the time at the end of the electric vehicle communication with the charging station for power outage, which means the charging process is completely over and the plug can be disconnected.

An indication of the time displayed in the charging station display and the actual charging time recorded in the recording system can be shifted.

With the start of charging process, the Customer accepts the current charging process fees based on charging time. Unless otherwise indicated, the prices shown includes VAT.

For registered Customers using Cards, the service is provided with a post-pay. The fee is payable upon receipt of the invoice. The invoice is sent to the Customer's e-mail indicated in the contract.

## **5. Payment via mobile application**

If the Customer wishes to pay for the service with a payment from the mobile application, the Customer shall act as follows:

- Register with the e-mobi application
- Add Payment Method(s). Please use a payment card, which is 3D secured for online purchases
- When start charging, follow the instructions on the application and on the station display
- Initially, the system charges EUR 0.10 to make sure if the payment method is active. After receiving the confirmation, 80 euros are reserved, which ensures the possible maximum charging costs for e-mobi and cooperation partners in Latvia and abroad. When the charge is complete and its cost is known, the corresponding amount is transferred to e-mobi
- The Customer should note that 80 Euros are reserved for each attempt to start charging
- In case of successful charging, the balance of the reserved amount is released within 1-3 working days
- In cases where there are technical problems with the connection between the station and the monitoring system or the processing of the Customer's payment card data, the reserved amount may be withheld for up to 5 business days.

## **6. Support**

Information and technical support for Customers is available from Monday to Friday from. 8:00 to 20:00 and on Saturdays from 9:00 to 17:00 by phone +371 22001859 or 1859, or by e-mail [info@e-mobi.lv](mailto:info@e-mobi.lv). On questions received outside working time of Support answers are given on the next working day.

Customer can receive information and assistance on:

- Operation of charging stations and problems;
- Error messages;
- Information about the location of the nearest charging station;
- forgot, lost or not operating payment method;
- any other information related to the use of the e-mobi network.

## **7. Communication**

The Customer agrees that the legally binding information and notices are sent to him on the contractual email address he provided when registering in Portal or mobile app. In case of contact information changes (such as name, surname, company details, address, e-mail address and bank details), Customer immediately makes appropriate changes to the Portal or mobile app or inform us by phone +371 22001859 or 1859 or by e-mail [helpdesk@rekini.lv](mailto:helpdesk@rekini.lv)

If the Customer has not informed about the change of contact address then legally binding notifications sent to the last known address are considered received.

## **8. Responsibility**

After starting the charging, the Customer is obliged to make sure that the electric vehicle receives electricity and the charging process is successful. If no electricity is supplied / received during charging, process must be stopped and it must be ensured that the vehicle is parked in a mode that allows the vehicle to be charged.

CSDD and other charging station operators are not responsible if the Customer uses obviously damaged charging station equipment or uses equipment that does not comply with these terms.

The customer is responsible for the chosen charging connector and the suitability of the vehicle for the selected charging device.

CSDD and other charging station operators are not liable for malfunctions or quality degradation in charging stations, if the prevention of their cause is not in the capacity of CSDD or other charging station operators, i.e. if the charging

station does not work or works inappropriately and it's caused by force majeure circumstances beyond the control of CSDD or other charging station operators.

### **9. Changes to the Terms and conditions**

Changes or amendments to the Terms and Conditions come into effect after their publication on the Portal.

Customers are notified of changes in the Terms of Use 10 days in advance.

By continuing to use the charging service, the Customer agrees to any changes or amendments to these Terms and Conditions. If the Customer does not agree to changes or amendments to the Terms and Conditions, then the Customer has the right to refuse to use the charging service by informing it by phone 22001859 or 1859 or by e-mail info@e-mobi.lv. After receiving this notice within one week, the Customer's profile is closed on the Portal or in the mobile application.

The current version of the Terms and Conditions is available on the portal. Previous version of the Terms and Conditions may be sent to the e-mail address upon separate request of the Customer.
